

Institution of Civil Engineers

Events Broadcasting Agreement

Broadcasting

To maximise the potential audience of their events and to provide valued CPD to its members, ICE broadcast a selection of their events in real time via webcast and/or via video recording technology delivering both visual and audio images. Following the event the recording is available to view on ICE's website. In conjunction with selected partners, ICE may record the event to DVD for future use.

It is the policy of the ICE Group to ask speakers to agree to the broadcast (via webcast or video recording) of the content of their single or group lecture presentation(s). By signing this document the speaker is happy for his/her material to be webcast, DVD recorded and web archived. If the speaker is not in agreement then they need to advise the event organiser of their stipulations.

Selected slides and audio can be edited from the video recording prior to its publication on the ICE website.

For jointly delivered lectures or presentations, all speakers must sign this form, or an individual can be designated to sign for the collective.

Please complete the form below, keep a copy for your records, and return the **completed form** to the event organiser address below.

Conference/Lecture title *[to be completed by the Event Organiser]*

Recent changes to the ICE Specification for Piling and Embedded Retaining Walls

I hereby agree for ICE to broadcast the content of my presentation by:

Live web-broadcast
Archive on ICE website
Make available on ICE App
