Celebrating engineering ingenuity

The ICE London Civil Engineering Awards celebrate outstanding civil engineering achievement, innovation and ingenuity within Greater London. The Awards have grown over the last decade into the highest honour for engineering excellence in the capital.

With ICE President Rachel Skinner as guest of honour, the Awards Ceremony will take place on the evening of Thursday 20 May 2021

2021 awards

The 2021 London awards will showcase how ICE members are championing best practice, leading by example and making a positive impact to the civil engineering profession and to communities in London.

Team of the Year

Awarded to the most dynamic, diverse and collaborative team in the industry. This can be an internal team within your own organisation, a joint venture or project team made up of clients, contractors, suppliers and other partners within the industry. The team should be based mostly within Greater London, although the projects they work on might be outside the region.

Criteria

- Overall team impact on the project or organisation
- Team culture
- Collaboration, diversity and inclusion
- Positive impact on the industry
- Why your team stands out from others

Individual categories

ICE London STEM Ambassador of the Year

This award honours an individual who has shown outstanding commitment to civil engineering by giving his or her time, to inspire the next generation of civil engineers on behalf of ICE London. The winner of this award will be entered into the ICE STEM Ambassador of the Year at the ICE Awards 2021.

Criteria

- Completed STEM engagement activities in the last year – from March 2020 - February 2021.
- Brought enthusiasm and experience to an audience of young people
- Provided appropriate and useful information to enable young people to make informed decisions on their next steps to becoming a civil engineer
- Acting as an inspiring role model through their professionalism
- Inspiring colleagues and peers to become ICE STEM Ambassadors
- Working with ICE to improve its education outreach

Rising Star Award*

Individuals must be able to demonstrate integrity and professionalism in their employment and voluntary activities. This could be through developing innovative practices, ways of working that have had a positive impact or using their enthusiasm to inspire and motivate colleagues to excel. It could also be by showing how they have promoted civil engineering to the public, young people and/or other professionals.

Criteria

- Positive impact on the profession
- Integrity and professionalism in employment and voluntary activities
- Promoted civil engineering (general public, young people and/or other professionals)
- Develop culture of fairness and inclusion, ensuring all teams or members valued
- Demonstrated enthusiasm to inspire and motivate colleagues to excel
- Innovative practices or ways of working with a tangible effect on the industry

*eligible for early career engineers or technicians with less than 10 years professional experience.

Volunteer of the Year

This award is designed to recognise and reward the ICE member who has made an outstanding contribution to the ICE through volunteering. This could be on an ICE Committee or panel, as a Supervising Civil Engineer, Delegated Engineer or Mentor, Reviewer or Assessor among others.

Criteria

- Demonstrated enthusiasm to inspire and motivate colleagues and/or ICE members to excel.
- Promoted best practice and expertise within ICE initiatives and activities.
- Identified learning and development opportunities for colleagues and/or ICE members.
- Supported for colleagues and/or ICE members journey towards professional qualification.

Fairness, Inclusion, and Respect Champion

Engage, inspire and connect colleagues within the engineering industry to make positive change which ensures all colleagues are treated with fairness and respect.

Criteria

- Acted as a role model in championing equity in relation to diversity issues
- Facilitated events, activities and initiatives that promoted wider understanding of culture, and underrepresented groups within their organisation and/or industry.
- Maintained and adapted company policies/procedures to ensure remote workers or members of hybrid teams felt included during covid-19.
- Demonstrate how you have had a positive impact on organisational culture.
- Provide examples of how you monitor and track progress within your organisation.
