  - **Technical Talk by Mr. Dinesh Kumar Malik and Mr. Bhushan Patil**
  - **Q&A Session and Interaction**
  - **High Tea**
-

## **Technical Talk Topic Water UV Disinfection**

### **About the Technical Talk:**

Trojan Technologies is making significant investments in the India water/wastewater UV disinfection market based on our recent awareness of environmental initiatives such as the National Mission Clean Ganga, Smart Cities and other STP projects in major urban areas involving upgrading works to meet growing infrastructure needs, more stringent discharge criteria and or consider re-use options.

They feel that there is a growing opportunity in India and are interested in meeting and establishing relationship with key customers and stakeholders in order to explore, discover, support and further validate drivers and needs, both current and anticipated.

### **About ICE:**

The Institution of Civil Engineers (ICE) is one of the world's most respected professional engineering associations with over 91,000 members globally. Since we were formed about 200 years ago, we have attracted some of the most famous and influential civil engineers in history. ICE supports civil engineers and technicians throughout their careers. We award professional qualifications that are the industry standard, lead the debates around infrastructure and the built environment and provide an unmatched level of training, knowledge and thought leadership. To know more, kindly visit our website <http://www.ice.org.uk>

**ICE in India:** Any member-driven organisation can sustain only if it is relevant to the people in the region. For any professional institution to remain relevant, ICE realises the need to have local presence in various regions. With over 1900 members of ICE in India spread across five local associations led by ICE representatives in Bengaluru, Chennai, Kolkata and Mumbai, ICE intends to bring best value for its members by providing platform for knowledge sharing and thought leadership for the industry, while constantly endeavouring to improve the overall quality of engineers that deliver projects that achieve newer milestones in engineering.

At the ICE Mumbai local association, we invite leaders, professionals, students, researchers to come forward with their ideas to create and conduct events that will have long lasting effect and create a positive impact to the society, making this world better for everyone to live in.

### **About the Speakers:**

**Dinesh Kumar Malik** is Director – Marketing, Trojan Technologies, a group Company of Danaher Corporation.

Dinesh Kumar Malik is seasoned Water Professional having worked around entire water Cycle 3T's;

- Treatment – Biological Treatment and Disinfection
- Transport – Centrifugal Pumps
- Testing – Online, On Site, Laboratory

He is based out of New Delhi, India with an Academic Background in Mechanical Engineering and post graduate in Marketing; he has more than 18 years of experience in this domain.

His role also encompasses educating engineers, regulators and operators about the science behind UV technology and various other water treatment processes.

Dinesh has been with Danaher Group since 2014. Dinesh was responsible for Hach Vertical of Danaher Corporation for Water Quality Monitoring prior to handling UV treatment Vertical of Danaher Corporation.
