ICE Wales Cymru STEM Ambassador of the Year Award 2024

Sponsored by Jones Bros (Civil Engineering Ltd)

You are invited to apply for the prestigious ICE Wales Cymru STEM Ambassador of the Year Award. This award is open to all ICE members involved as a STEM Ambassador in Wales.

The winner will receive:

- a) a monetary prize.
- b) a prestigious trophy.
- c) a certificate of their achievement; and
- d) recognition in the ICE Wales Cymru 2024 Awards ceremony

Last year's winner was Ellie Thomas, who went on to win the UK title

Ellie is pictured receiving her award from Alan Davies of Cambrensis at the annual Award dinner 2023

Ellie said:

"I am delighted to have been recognised for the work I have been doing with the ICE and within Atkins Realis to improve STEM outreach and impact. STEM outreach is hugely important to me as I am passionate about reducing inequality in the industry so that we have a diverse workforce to solve the problems of the future and so that everyone has the opportunity to succeed."

STEM Ambassador of the Year 2024 – Minimum entry requirements

Entries are open for all individuals who:

1. Are a current ICE member living or working in Wales
2. Are registered as a STEMM Learning Ambassador
3. Involved in STEMM activity in the last year as an ICE STEMM Ambassador, including digital events.

Nominations can be made by the individuals themselves or by another ICE member on behalf of an individual they would like to see recognised. (The individual in question will need to complete the form answering all the relevant questions).

Nominations are requested on the separate form provided.

Applicants should send their entry forms to wales.cymru@ice.org.uk by **midnight Friday 28 June 2024**. Entries received after this date will not be considered.

Mark your application: 'Application: ICE Wales Cymru STEM Ambassador of the Year 2024'

For further information or for any questions, contact wales.cymru@ice.org.uk

Footnote:

As winner of this title you will be invited to many ICE activities across Wales throughout your year. Ellie has already been invited to meetings, events and site visits including the launch of ICE's Time is Running Out exhibition which is currently touring the UK.

Ellie commented:

"As STEM Ambassador of the Year I took part in the launch of the ICE's Time is Running Out exhibition in Wrexham. I presented to year 5 and 6 students about careers in civil engineering and the role that we play in combatting the climate crisis. The students were extremely engaged and enjoyed learning about the industry – especially after we told them civil engineers can also design rollercoasters!"
