

The **Society of Construction Law** and the **Institution of Civil Engineers** are delighted to invite you to a seminar on:

“Engineering a Better World”

Lessons from events like Grenfell on delivering outcomes that benefit society

Dame Judith Hackitt DBE FREng

Tue 5th July 2022 - 6.00 for 6.30

Venue: Saïd Business School, Park End Street, Oxford OX1 1HP

Join us for this Joint SCL and ICE event where Dame Judith Hackitt DBE FREng will explore how good engineering can make the world a better place at 6.30pm in Oxford.

Dame Judith Hackitt DBE FREng is a chemical engineer and currently Chair of Enginuity, the UK skills body for Engineering and Manufacturing. She is also a senior non-executive director of the High Value Manufacturing Catapult, an organisation which exists to support and encourage innovation in Advanced Manufacturing, and is a Board member of HS2 Ltd. Following the tragic fire which occurred at Grenfell Tower in London in June 2017, Dame Judith conducted an independent review into Building Regulations and Fire Safety related to high rise buildings for the Government.

The Grenfell Tower fire was a chilling lesson in how failure – human and technical – can lead to tragedy. Dame Judith Hackitt DBE FREng will talk on what lessons can be learnt from this and how engineering can help to make the world a better place drawing on some of her personal experiences, the importance of ethics in engineering and building Safer Complex Systems.

The meeting will be chaired by **Richard Bayfield FICE FCIArb** (Former Chair SCL and currently ICE Trustee for ethics and professional conduct).
