

COASTAL MANAGEMENT 2025

Creating a climate for change
16-18 September 2025, Bristol, UK

Conference sponsor pack

Your invitation to Coastal Management 2025

The Institution of Civil Engineers (ICE) is delighted to invite you to its 10th Coastal Management conference on 16-18 September 2025.

This ever-popular event assembles experts from across the global marine and coastal engineering community, along with a wide range of organisations supporting their vital work.

Coastal Management 2025 offers stakeholders throughout this sector the ideal opportunity to network with clients and prospects while aligning themselves with cutting-edge research and innovative practice.

Having been held in locations as varied as Amsterdam, La Rochelle and Belfast, the upcoming event will take place in the west of England at the historic port city of Bristol.

Offering high-quality conference facilities, Bristol is also an excellent base from which to make technical visits to several coastal engineering systems in the region. Sites on the event programme include the tidal barrier being built on the River Parrett at Bridgwater and the flood defence scheme at Steart Marshes, a coastal nature reserve on the Somerset Levels.

The various social functions planned around the conference, including a gala dinner aboard the legendary steam ship Great Britain, will offer many further chances to meet delegates and speakers.

There will be so much going on in Bristol next September. We look forward to seeing you there.

Mark Hansford,
Director of Engineering Knowledge, ICE

About the ICE

The Institution of Civil Engineers is a 97,000-strong global membership organisation with more than 200 years of history.

The ICE exists to improve lives by ensuring that the world has the engineering capacity and infrastructure systems required to enable our planet and its people to thrive.

It is a centre of engineering excellence, qualifying engineers and helping them to maintain lifelong competence, assuring society that the infrastructure they create is safe, dependable and well designed.

Its network of experts offers trusted, impartial advice to politicians and other decision-makers on how to build and adapt infrastructure to create a more sustainable world.

Coastal Management 2025 is one of many events the ICE holds around the globe each year to help the profession share knowledge and spread best practice as widely as possible.

About the conference

For nearly four decades, the Coastal Management conference has assembled leading experts from the global marine and coastal engineering community, as well as a range of organisations supporting this vital work.

Coastal Management 2025 will begin on Monday 15 September with an optional short course followed by an informal opening reception. This will be the first of many valuable networking opportunities.

This will be followed by two days of conference activities, including plenary presentations, in-depth spotlight sessions and panel discussions.

Proceedings will close with an informal gala dinner aboard Isambard Kingdom Brunel's SS Great Britain – the world's largest ship when it was launched in 1843.

The headline theme of the conference is "Creating a climate for change" with the conference focusing on five main themes:

- Exploring how climate change requires a new approach to coastal management
- Sharing best practice and progress from innovative projects around the globe
- Defining how the sector will develop to meet the future needs of communities
- Utilising finance to achieve better outcomes
- Inspiring the next generation and establishing a climate for change

There will be numerous opportunities to network with delegates from across the coastal engineering and infrastructure community as well as attend the many plenary, presentation and innovation spotlight sessions.

“Events such as Coastal Management enable us to come together and share our knowledge so that we can apply this to other projects.”

Elevate your impact: Sponsor Coastal Management 2025

Are you ready to position your organisation at the forefront of the coastal management community?

Coastal Management 2025 offers an unparalleled opportunity to connect with industry leaders, cutting-edge researchers, and decision-makers who are shaping the future of global coastal ecosystems and sustainable development.

Why sponsor?

Strategic networking opportunities

This is more than just a conference. With a legacy of 40 years, Coastal Management 2025 is the premier networking platform where industry pioneers converge. As a sponsor, you'll gain direct access to this exclusive community of coastal engineers, technology innovators, marine scientists and environmental policy makers.

With a theme of "Creating a climate for change" sponsoring Coastal Management 2025 will put you at the centre of critical conversations that are defining the next generation of coastal management strategies.

Target audience engagement

Our carefully curated conference, overseen by an organising committee drawn from a wide variety of coastal consultants, academics and policy makers, ensures that only the most influential professionals and researchers are in attendance. This means every delegate in attendance is an opportunity to undertake valuable conversations.

By sponsoring, you'll position your brand directly in front of key decision-makers and thought leaders who are actively seeking innovative solutions and partnerships in this rapidly changing sector. This is your chance to showcase your organisation's expertise and capabilities to a highly targeted, motivated and experienced audience.

Showcase of technical excellence

Sponsors will be immersed in a world of cutting-edge research and technological advancements. From groundbreaking conservation techniques to innovative coastal protection schemes and technologies, you'll be at the centre of the ICE's knowledge exchange.

Your sponsorship demonstrates your commitment to pushing the boundaries of coastal management and environmental stewardship, ensuring you have the right conversations with the right people at the right time.

Visibility and brand positioning

Our comprehensive sponsorship packages offer multiple touchpoints for maximum exposure:

- Prime exhibition space co-located with networking and catering areas
- Logo placement within a wide variety of conference materials
- Access to full delegate list for post-event marketing and networking
- Social media and digital marketing exposure for your brand

Investment in future solutions

By sponsoring Coastal Management 2025, you're not just promoting your brand, you're investing in critical conversations about coastal resilience, environmental protection, and sustainable development. You'll be supporting crucial knowledge sharing and providing an opportunity to talk with peers and colleagues that will drive meaningful change in one of the most critical environmental challenges of our time.

Don't miss this opportunity to align your organisation with excellence, innovation, and impact.

Join us. Be part of the solution that will create a climate for change.

**“It’s a great opportunity for us
as a business to understand
what’s going on, so that we
can improve future schemes.”**
