

Small Project Award 2021, up to £5million Winnington Swing Bridge Repairs, Cheshire

Cheshire West & Chester Council, Canal & River Trust, Kier, Arcadis, CGC, Davies Industrial

A critical upgrade on a main trunk road route that otherwise would have had a massive impact on society connectivity, requiring a 15-mile detour.

The team dealt with unknown asset condition but focused on repair not replacement – a blueprint for reducing carbon in infrastructure. This was real “hands-on” engineering in action.

A highly commended was also awarded:

- **Keswick Multi-User Bridges, Cumbria**

Lake District National Park, A L Daines, Cubby Construction, Beaver Bridges

The replacement bridges were highly commended for the ingenuity shown in the construction and installation of the bridges - whilst avoiding use of the riverbed, which is prone to flood risk.

Also nominated:

- **Bolderstones Bridge Reconstruction, Crewe**

Network Rail, Tony Gee, Murphy

- **New Brighton Aids to Navigation Replacement Works, Wirral**

Wirral Borough Council, Fairhurst, Southbay Civil Engineering, Coastal Engineering UK

- **Stainton Aqueduct Reconstruction, Kendal**

Canal & River Trust, Arcadis Consulting, Kier Infrastructure

- **The Big One Retrack, Blackpool**

Blackpool Pleasure Beach, Westlakes Engineering, Taziker Engineering Solutions
