1. Ms CHAN, Lei Suen

Biography

Caitlin Chan is a driven year 3 civil engineering undergraduate student at The University of Hong Kong. She is currently having her exchange studies in Aalto University, Finland, studying master's level courses and has worked as an intern and project assistant in AECOM. She is passionate about civil engineering and collaborating with others to spark the interest of graduates and students in civil engineering.

Being the External Vice-chairperson, Acting Welfare Secretary cum Acting Marketing Secretary of Civil Engineering Society, ENS, HKU, Session 2023-2024, Caitlin has demonstrated exceptional leadership, practical and problem-solving skills and has thrived to organize and lead various activities for her fellow civil engineering classmates.

Caitlin has been the HKU Student Representative of ICE HKA G&S Session 2023-2024 and is delighted to find like-minded committees who share the same interest in civil engineering and are keen to serve the public. She has actively contributed to the planning and execution of multiple events such as Shaping Our Future City, Communication Competition and Model Building Competition.

With her experience and passion, Caitlin strongly wishes to continue promoting civil engineering and working with the other committees in ICE HKA G&S Session 2024-25.

Platform statement

I am an enthusiastic student who has a genuine desire to serve and promote civil engineering to our community. I am dedicated to creating opportunities for students and young graduates to have an all-rounded growth while equipping ourselves with industry knowledge and skills and get prepared for our journey being a chartered civil engineer. It is also my aim to foster connections and communications among our members, universities, companies and organisations and generate new thoughts and ideas collaboratively. In the upcoming year, I hope we could flourish in our personal and professional development together with the other committees.

2. Mr CHEUNG, Ho Ching

Biography

Alfred graduated from the University of Hong Kong (HKU) with a Bachelor of Engineering in Civil Engineering in 2023. He is currently pursuing a part-time degree of Master of Science in Civil Infrastructural and Engineering Management at the HKUST while working as a Civil Engineering Graduate at the Works Departments of the HKSAR Government.

During his time at university, Alfred served as a committee member of the HKIE Student Chapter, where he organized events like the annual dinner, mentorship program, and career talks for final year students. This allowed him to develop strong leadership and management skills. He actively engaged in ICE HKA G&S events, both as a helper and participant. For instance, he provided his expertise as a photographer for the mock CPR presentation workshop. Also, he participated in the Communication Competition 2023 - 2024 and was the champion team in the competition. All this knowledge and experiences showed his strong dedication to the civil engineering industry and allowed him to become a candidate for the position of committee member in the 2024-2025 session.

Platform statement

I am Alfred and I am honoured to be nominated for this position. As a graduate currently, I have been actively participated in numerous activities organized by the ICE HKA G&S as a participant and a helper. In particular, I actively participated in the Communication Competition 2023 – 2024, allowing me to polish my problem solving and presentation skills. In this year, I would like to take a step forward and become one of the committee members which will enable me to make a greater contribution to the professional development of graduate and student members in the institution.

3. Ms FONG, Ka Wai Megan

Biography

Fong Ka Wai Megan is a highly motivated individual who recently graduated from City University of Hong Kong with a Bachelor of Engineering in Civil Engineering. Currently working as a graduate engineer in the Project Management Sector of a local consultancy.

During her university years, Megan actively promoted civil engineering among her peers. As the Internal Secretary of the Building and Construction Students' Society, she honed her problem-solving and communication skills through various activities. Megan also demonstrated strong coordination, teamwork, and leadership abilities while organizing functions.

Megan's commitment to the civil engineering field is evident as she aspires to contribute as a committee member of ICE HKA G&S (Institution of Civil Engineers Hong Kong Association Graduate and Student Division). With her passion for civil engineering and her dedication to promoting the profession, Megan is an exceptional candidate for the committee member position. Her university experiences have equipped her with problem-solving, communication, and organizational skills that will undoubtedly contribute to her success in this role. By inspiring and supporting fellow civil engineering enthusiasts, Megan will make a positive impact within the ICE HKA G&S committee and the civil engineering community.

Platform statement

ICE HKA G&S serves as an invaluable platform for connecting and engaging young professionals and students in the field of civil engineering. It aims to inspire individuals, foster connections, facilitate knowledge exchange, and promote the industry to the wider public. Recognizing the importance of this platform, I am eager to take a step forward and contribute my enthusiasm and dedication to serving the G&S division.

With my enthusiasm, dedication, and organizational skills, I am fully prepared to contribute to the division's mission of inspiring and connecting young professionals and students.

4. Mr LAM, Cheuk Yin Bryan

Biography

Bryan graduated from the University of Hong Kong with a Bachelor of Engineering in Civil Engineering. He is currently pursuing a part-time degree of Master of Science in Civil Infrastructural and Engineering Management at the Hong Kong University of Science and Technology while working as a Civil Engineering Graduate at the Works Departments of the HKSAR Government.

Bryan has achieved numerous accolades in recent years, attaining Championship of the ICE HKA G&S Communications Competition 2023-24 and the HK Electric Green Energy Dreams Come True 2021 as the group leader, during which he developed team management skills and refined his decision-making abilities. Bryan is also proficient in public speaking, as he was invited as the MC for the ICE HKA G&S: One-Day Seminar 2024, as well as multiple HKIE technical seminars. He is also experienced and passionate about planning STEM events, co-organizing the STEM x Marine Vehicles Design / Construction Competition with the Hong Kong Institute of Maritime Technology, where he designed robotic workshops for secondary students while coordinating the procurement and logistics of the event. His experience and passion for promoting engineering knowledge make him a suitable candidate for the position of committee member in the 2024-2025 session.

Platform statement

I, Bryan Lam, am honored to be nominated for this position. I strongly believe in the impact of youth empowerment, as they build the foundation towards a better future within any industry. Throughout University, I have engaged in multiple STEM-related events in hopes of promoting and encouraging the acquisition of knowledge and driving career motivation. In the coming year, I would like to further leverage the platform that the G&S committee provides, to reach out to a broader genre of audiences, and further contribute towards the professional development of graduate and student members in the institution.

5. Ms LEE, Hoi Nam

Biography

Lee Hoi Nam, Venus was born in Hong Kong. She is currently a year 3 student pursuing a major of Civil and Environmental Engineering at The Hong Kong University of Science and Technology (HKUST). She showed passion for creating and shaping the environment and drawn to civil engineering since secondary.

Enriching her professional development, Venus has led active roles in her community. As an External Vice-President of the Civil Society and the Student Representative of Institution of Civil Engineers Hong Kong Association Graduate and Student Division (ICE HKA G&S), she has had extensive experiences in organizing students' events for more than 200 participants and built up connections to the industries. The main takeaway from the above comes down to "solution" again. Ever since pandemic times, hedging the risk of events became an essential part in organisation. For example, disrupted logistics, allocation of manpower and reaching consensus etc. Various experiences have made Venus realized that she is a proactive and challenge-seeking diplomat. She enjoys dissecting various difficulties and finding the most suitable solutions for them because she believes that all unstable situations are opportunities for growth.

Platform statement

I reckon that ICE HKA G&S provides a dynamic platform for connecting and engaging young professionals and students to become leaders of the civil engineering industry.

With my passion and skillset, I am eager to take a proactive role in serving the G&S division, by organizing impactful events that benefit aspiring civil engineers. Members can enrich their educational and life experiences, strengthen the commitment of leaders to their chosen careers, and promote the industry as a whole. I will strive to establish ICE HKA G&S as a guiding light, illuminating the path for future generation.

6. Mr LEE, Tin Ching Brian (GMICE)

Biography

Brian graduated from the Hong Kong University of Science and Technology with a Master of Science in Civil Infrastructural Engineering and Management and is currently working as an Assistant Resident Engineer at Ove Arup & Partners Hong Kong Ltd.

Brian is a co-opted member of ICE HKA G&S Session 2023-2024 under the Delegation Team and External Engagement Team. He was a member of the organising committees for Nordic Delegation 2023 and South Korea Delegation 2023. He assisted in planning and actualising overseas delegations that foster cross-cultural exchange and facilitate technical knowledge sharing among civil engineering professionals, young engineers and students from different regions. He also took charge of organising a joint society hybrid seminar with more than 200 participants and played an active role in organising a joint society workshop, focused on promoting alternative dispute resolution to young civil engineers and students.

Platform statement

ICE HKA plays a pivotal role in advancing the civil engineering profession in Hong Kong. In the coming session, I would like to take up the role of a committee member and continue to contribute to HKA G&S's mission of promoting and encouraging the acquisition of knowledge by members in all matters of the profession of engineering that would enable young engineers to thrive and reach their full potential in the future.

7. Mr LEE, Yee Nok

Biography

Enoch Lee is a capable HKUST civil engineering graduate with excellent academic and leadership qualities. He achieved the Dean's List in the Fall of 2022-2023. Currently, he works as a Geotechnical Graduate Engineer at AECOM, where he has independently worked on several LPMit works contracts.

Enoch is a proven leader, served as the Internal Vice-President of HKUSTSU's Civil and Environmental Engineering Students' Society in 2021-2022. He also chaired the ICE HKA G&S Model Building Competition in 2024, leading by example with his strong leadership skills. Enoch has been an active member of the ICE HKA G&S for four years, contributing to various events such as the Communication Competition, Shaping Our Future City, One-day Seminar, and site visits. His contributions earned him the Outstanding Helper Award in 2022-23.

Enoch supported rural infrastructure improvements in China and Hong Kong with the HKUST Wu Zhi Qiao Volunteer Team in the past. He also demonstrated his analytical and teamwork skills as the First Runner-up in the HKIE Joint Student Chapter Case Competition in 2022.

Enoch is determined to leverage his experience and passion for civil engineering and make significant contributions to ICE HKA G&S Session 2024-25.

Platform statement

I am passionate about promoting Civil Engineering and supporting young professionals in the industry. My goal as a G&S committee member is to bridge connections between ICE members, universities, practitioners, professional associations, and organisations. Additionally, I am committed to organising a wide range of high-quality events that cater to the diverse interests of our members. Your feedback is incredibly valuable, and I pledge to incorporate member ideas to shape our future activities. By working alongside other like-minded ICE committee members, we can collectively realise the vision of ICE and create meaningful opportunities for professional growth within the construction industry.

8. Mr LEUNG, Chin Hei Tristan (GMICE)

Biography

Hi, I am Tristan Leung. I am currently a Civil Engineering Graduate working for the Civil Engineering and Development Department of the Government, having previously worked for the Highways Department, working on site formation and bridge projects. During the past year, I have been an active member of ICE HKA G&S, participated in numerous activities such as seminars, receptions and field trips. I am also serving as a facilitator in the “Shaping Our Future City” campaign organized for secondary school students to let them know more about our industry. Before joining the Government, I have been studying Civil Engineering at Imperial College London, where I had already been joining numerous activities organized by the ICE. In addition to being a Graduate Member of ICE, I have been a member of the Lighthouse Club Young Members Group, an organisation that seeks to deepen ties between construction industry professionals while also helping those less fortunate in the industry. I have been organizing site visits for the club in this capacity. I believe that the connections and experience gained by my experience both within and outside of this institution would greatly help me if I serve at the G&S committee.

Platform statement

As a passionate member of this institution, I am eager to represent you in the ICE G&S committee, contributing my skills and enthusiasm to an institution that has helped me so much along the way. If elected, I aim to deepen our bonds with other construction industry professionals, such as Architects, Quantity Surveyors and Building Services Engineers through joint site visits and workshops. I will also strive to recruit more graduate members to our institution. To make graduate membership more attractive, I will lobby for a lower subscription fee for this membership class. Thank you for your consideration.

9. Ms LI, Xueyi

Biography

Sherry is a dynamic and vibrant individual, currently pursuing a degree in Civil Engineering as a second-year student at City University of Hong Kong. With a passion for both academics and extracurricular activities, Sherry has made a significant impact during her time at the university.

As a dedicated student representative of CityU in the Institution of Civil Engineers (ICE) for the past year, Sherry has been actively involved in advocating for the interests and welfare of her fellow civil engineering students. She has tirelessly participated in events from ICE in the past year.

Moreover, Sherry as an external vice-president in the building and construction society of CityU in the past year, has worked with members to benefit CityU ACE students, planning activities and even organizing a three-day, two-night orientation camp.

Sherry's ability to balance her academic responsibilities. Her dedication to both her studies and her extracurricular activities exemplifies her drive and determination to excel in all areas of her life.

With her infectious enthusiasm, leadership skills, and artistic interest, she will continue to pursue her civil engineering degree and contribute to the ICE.

Platform statement

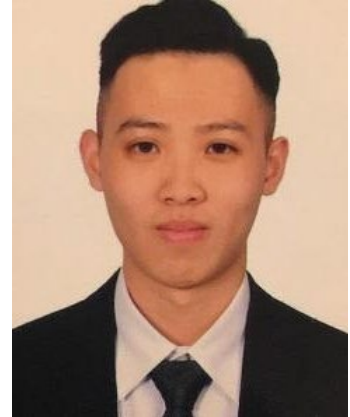

As a nominated Personal Development Team Leader in the Institution of Civil Engineers (ICE), Sherry fosters fellow civil engineering students' growth and professional development.

With a passion for personal and career advancement, Sherry will create a platform that provides resources, workshops, and mentorship opportunities to enhance the skills and knowledge of ICE members by promoting collaboration, networking, and continuous learning to prepare them for successful careers in the civil engineering industry.

As a leader, Sherry will inspire and guide the team toward personal and professional growth, ensuring a bright future for all ICE members.

Candidate biography and platform statement**

10. Mr MA, Ho Pan

Biography

With reference to the ICE website, I have pleasure in being one of the committee members of ICE G&S Division.

I believe that I possess the requisite professional skills and personal qualities to qualify a place in ICE G&S Committee. I have accomplished BEng (Hons) and MSc in Civil Engineering at the Hong Kong Polytechnic University in 2020 and 2023 respectively. Through this six-year study at university, I have acquired sound theoretical knowledge of all facets of the civil engineering profession.

Apart from learning from textbooks, I have also learnt by doing. In 2019, I engaged in the ICE Model Building Competition. Being a team leader, I had to be considerate and thoughtful in order to manage the team properly. The competition has given me a rewarding and fruitful experience to enhance my problem-solving, collaboration and management skills.

Making contribution to the construction industry is one of my goals. Not only can I organize various service learning activities to contribute to the society, but also can arrange webinar to foster the ICE graduate and student members. I believe that my strong background can place me in a strong position of becoming the committee member in ICE G&S Division.

Platform statement

It is a great privilege and honour to fill my nomination for committee member in ICE G&S Division. Apart from the excellent academic achievement during Bachelor and Master studies, I am also a committee member of Young Members' Club of my current company. Being a committee member in ICE G&S Division is one of the accomplishments I would like to achieve. I believe that not only can I improve problem-solving, leadership and collaboration skills, but also can gain more in-depth knowledge in civil engineering and broaden my horizons. Most importantly, I can help foster ICE G&S members through organizing webinar.

Graduates and Students Division
Committee election, session 2024-2025
Candidate biography and platform statement**

11. Mr WONG, Jun Yan Johnson

Biography

Johnson is currently working as a Civil Engineering Graduate managed by the Highways Department. He graduated with the Bachelor of Engineering in Civil Engineering and the Bachelor of Business Administration (Major in Human Resource Management) from the University of Hong Kong. He is now studying the Master of Science in Engineering (Civil Engineering) at the University of Hong Kong. He aims to acquire more comprehensive and detailed knowledge in the field of Civil Engineering.

Regarding his work experience, he worked in the Works Division of the Highways Department and the Pier Improvement Unit of the Civil Engineering and Development Department previously. He is now working in the Design Division of the Water Supplies Department. He aims to acquire more practical experience and engineering knowledge in his training, as well as develop various skills.

Platform statement

I have participated in different events held by the ICE HKA G&S Division. I am eager to be one of the Committee Members in the ICE HKA G&S Division. Through gaining experience in assisting the division's affairs and organizing events, I hope to serve the ICE HKA G&S division, and at the same time, acquire experience and develop skills, such as interpersonal skills. It will be a unique and fruitful opportunity that will foster my career development and personal development.

**Institution of Civil Engineers, Hong Kong Association
Graduates and Students Division
Committee election, session 2024-2025
Candidate biography and platform statement**

12. Mr YEUNG, Hayden

Biography

Hayden Yeung, a third-year Civil Engineering student at HKUST. Besides a solid academic background, Hayden gained practical experiences through a summer internship at Kwan On Construction Co. where he not only applied theoretical knowledge into practice but also honed his problem-solving and critical thinking abilities.

Hayden's leadership skills and teamwork ability are demonstrated by his prior role as the Internal Vice President for the ASCE ISG, where he organized various society events, such as academic speeches, networking sessions, and firm visit opportunities. While he's currently serving as a Civil Engineering Student Ambassador for HKUST, Hayden is actively promoting the civil engineering industry while offering support and encouragement to his peers.

In joining the ICE HKA G&S, Hayden is willing to utilize his skills and strengths in the ICE HKA G&S. He aims to organize more collaborations and events with academic institutes in Hong Kong to promote the engineering industry within the younger generation and create a supportive environment for all ICE HKA G&S members and ultimately making contributions to the engineering industry in Hong Kong.

Platform statement

When I ask my friends about life after graduation and what engineering means to them, they usually have no clue at all, and some might even think of jumping ships to different fields. With the engineering industry lacking fresh blood, I believe it's our responsibility to unite current engineering students and graduates together, make them proud of being engineers, and shape a better future for generations to come.

**Institution of Civil Engineers, Hong Kong Association
Graduates and Students Division
Committee election, session 2024-2025
Candidate biography and platform statement**

13. Mr YUNG, Hin Wang Anthony

Biography

Anthony is a hardworking, self-motivated, resilient civil engineering graduate who will always look to improve and grow in all aspects of his life.

Anthony graduated with a Bachelor of Engineering (Civil Engineering) from the University of Hong Kong. He is now studying for a Master of Science in Engineering (Civil Engineering - Structural Stream) at the University of Hong Kong. Also, he will commence his other degree (Juris Doctor – Part-Time) at the Chinese University of Hong Kong in September 2024. He is engaging in professional development and believes that continuous learning and growth are essential in the field of civil engineering.

Anthony is currently working as a Civil Engineering Graduate managed by the Highways Departments. He previously worked in the Major Works Project Management Office of the Highways Department and the Sewerage Project Division of the Drainage Services Department. He is now working in the Pier Improvement Unit Division at the Civil Engineering and Development Department.

Platform statement

I am passionate about promoting civil engineering within our society. To provide opportunities for professional development, networking, and knowledge sharing within our committee, I am eager to be one of the ICE HKA G&S Division Committee Members and serve the ICE HKA G&S division.

I believe that my skills and vision align with the goals of the committee, and I am confident in my ability to make a positive impact in this role. At the same time, it would benefit me to equip myself further to become a competent civil engineer.
