

ICE Supporting Academia Project

- ICE Safety, Health and Wellbeing Community of Practice Project “**Supporting Academia**”
- *The purpose of the group is to support the academic partners to freely use resources to help augment delivery of established teaching and learning objectives; to produce more ‘work ready’ graduates who understand the health & Safety challenges of the world of work; and who are able to make a contribution to improving the construction industry’s health & safety performance.*
- ‘Learning outcomes’ produced supported by list of existing resources
- Various ICE publications and other institution / association resources are identified as a valuable resource for under & post-graduates.
- A great opportunity to showcase the work of the ICE H,S & W Panel / Leadership Group.
