

G&S: mock CPR workshops 2024

About mock CPR workshop 2024

The mock Chartered Professional Review (CPR) workshops are intended to provide a replica of the CPR experience. Seasoned facilitators will evaluate the candidates' performance and share their observations with the participants of the workshops. To ensure quality delivery, the class size is limited to 32, including two candidates and 30 observers. The workshops will cover the entire review process and participants will develop a better apprehension of practical skills for the CPR.

Candidates are required to submit their Professional Review reports, including a two-page CV and appendices. Aligning with the current CPR arrangements, the presentation will last for 15 minutes, followed by an interview with the facilitators. Feedback for the candidate will then be provided by the facilitators.

Observers will spectate the presentation and interview. They are also welcome to raise questions in the Q&A session.

Fee

Candidate

HKD350 (Graduate or Student Member)
 HKD550 (non-Graduate or Student Member)

Observer

HKD250 (Graduate or Student Member)
